Nebraska Wheat Growers Association Announces Educational Events

Today the Nebraska Wheat Growers Association announced the second in a series of educational events for Nebraska's wheat producers. The series is designed to provide seasonally appropriate information during all phases of wheat crop production. Each part of the series will be scheduled to coincide with Nebraska Wheat Growers Association (NWGA) and Nebraska Wheat Board (NWB) meetings and will be held at various locations throughout the state.

The second educational event will be held Wednesday, June 10, 2009 from 1:00 – 5:00 pm at the Farm and Ranch Museum, 2930 Old Oregon Trail (East of Scotts Bluff National Monument), Gering, NE 69341. Although the event is free to Nebraska wheat producers, preregistration by June 8, 2009 is requested. A complete registration brochure with schedule and program information can be found on the Nebraska Wheat website at www.nebraskawheat.com. Registrations will be accepted by mail, fax or email.

Nebraska wheat is widely recognized in the industry for its consistent high quality, versatility and reliability. Presenters include Dr. Stephen Wegulo from UNL Plant Pathology, Mr. Mike Eustrom from the Kansas City Office of USDA, and Mr. Bart Moseman from Farmers Coop Elevator Co, of Hemingford, NE. Participants will have the opportunity to tour the Farm and Ranch Museum between 10:00 am and 1:00 pm.

The NWGA will meet on June 11 from 8:00 am – 12:00 pm. The NWB will meet on June 11, 2009 from 1:00 – 5:00 pm and June 12 from 8:00 am – 5:00 pm. Both meetings will be held at the Farm and Ranch Museum, are open to the public, and all wheat producers are encouraged to attend.
