April 6, 2010

Dear Fellow Nebraska Wheat Producer,

I hope this letter finds your wheat starting to green and moisture abundant. I want to encourage your membership in the Nebraska Wheat Growers Association. This is a very crucial time to have an active voice. There are numerous legislative bills on the state level such as water issues, check-off dollars and cuts to research dollars. There are also many hot topics on the hill in DC such as climate change and we are starting to work already on the 2012 farm bill. Your input is vital in constructing legislation and your membership guarantees your voice will be heard.

We are continuing to promote wheat and are starting to work towards finding markets specifically for Nebraska grown wheat. As we continue to gain ground in market development, there will be a huge push to raise white wheat. We are also engaging in discussions regarding public/private collaborations in transgenic wheat development. This will open many doors for disease resistance and many other traits.

We want to be your voice for your farm and legislative issues. The only way for that to happen is to send in your membership immediately. Please be sure to add your email address in order to receive updates on what events are going on and any information that may be of importance to you and your operation.

Membership applications can be found on our website at www.nebraskawheat.com and can be mailed to our office at PO Box 95063, Lincoln, NE 68509.

Thank you for your time and please consider this important opportunity. We look forward to receiving your membership and being your voice in Nebraska's wheat industry.

Sincerely,

Shawn Sullivan
President
