

Nebraska Wheat Growers Association

Every year you invest in seed, fuel, fertilizer, machinery and other inputs required to produce wheat. But, how much do you invest in equitable farm programs, international marketing and environmental issues which dictate how you run your farm?

Membership in the Nebraska Wheat Growers Association should be a part of your general operation costs, just like seed, fertilizer and fuel. Membership is really a type of insurance to help protect and improve your wheat price. Annual dues are a tax deductible *investment* into your industry.

Membership Fees

Grower/Producer/Landlord – \$75.00
Associate Member – \$100.00
Elevator – \$100.00
College Student – Call for Rate

Thank you for your commitment to the Nebraska Wheat Growers Association! NWGA frequently needs help from its members to influence issues. Sometimes that help is a simple letter or phone call to a legislator; sometimes it involves representing NWGA at a meeting, simply sharing your opinion on an issue or helping with an NWGA committee.

Please check below the issue areas where you would be interested in assisting NWGA in its mission of enhancing profitability for grain producers. Thank you!
